COMPANY PROFILE

The journey started by trading through export since the second decade of the 21st Century, i.e, 1st March, 2012 the S T Prithima Trading Pvt. Ltd. grown up to diversify its business activities with the creation of S T Prithima Group within a short span.

While entire globe is undergoing a great economic and social change with a rising demands of service industries and digital solutions. This demand is driven by technology revolution and fast moving social life and supported by the various policy changes worldwide which demands strong compliance for every business entity irrespective of its size or volume. To full fill this demands of various services our visionary leader and founder Mrs. Prithima Boodhun S and its highly talented Techno-Commercial Business Associates formed S T Prithima Group, who analysed the market need and have come up with the solutions of every service requirement by the way of various independent business models which will be provided separately as well as turnkey under one umbrella. Thus, focus is not just to do business, but to bring all those services to our clients and societies which will minimize their expenses with the cost effective, timely & quality services and will make our client worry free once our team takes the role to provide them our services.

VISION

To be the best service provider company across the globe by innovation, cost effective and digitized methodology.

MISSION

Proficient use of technology, human resources and various services of S T Prithima Group which will serve multi facets of socio-economical needs of the people to cope with fast moving society and to have ease of life and business.

PHILOSOPHY

We as a company are fully committed with high integrity to our clients and assure to provide the best services within a very expedient time and effective manner. Focus of Company is to look into enhancement of productivity by bridging the gap between being efficient and efficient.
